

BESTEQ engineering manufactures and supplies full-cycle equipment for processing, frying and canning fish in various tare

BESTEQ-FCL-9000

The production line of canned fish (fried fish in filling) BESTEQ-FCL-9000 is equipped with interconnected production units for all technological areas: from a defroster to a labeling machine

Specifications

raw material	river fish
fish size	15 - 40 cm
finished product	canned fish
output	1000 - 3000 kg/hour I 3000 - 9000 cans/shift
consumed resources (attention: exact value of consumption depends on capacity and composition of the production line)	electricity, water, steam, compressed air
tare	metal cylindrical can (tin, aluminum)
lid	simple / "easy-open"
label	paper with hot-melted glue
group packing	cardboard box

Supply cost—

is negotiable; supply volume, securing stocks in the importing country and other delivery conditions are determined individually with the client

**products are
certified**

Our benefits

**12 months warranty
service period**

Turnkey food production line supply

Our company will plan the whole processing line for your production needs, combined with the best equipment configuration from our manufacturing partners and engineering services.

Own service department

The company's specialists are ready to provide service support to their customers around the world and are also ready to audit third-party equipment

High reliability

We can provide a two-year warranty thanks to reliable components from leading manufacturers that we use in our equipment and machines

Own engineering department

Our engineering department guarantees full compatibility and consistency in the operation of each part of the equipment that we supply for your production line

Short delivery time

We can deliver equipment from 10 days anywhere in the world

Short payback period

Our design department will develop and select equipment individually for your requirements to get efficiency and best results in the production to achieve payback for your investments in the shortest period

Reasonable cost

The combination of our own production and long term close partnership with other manufacturers allows us to offer the best price and guarantee the highest quality level
